## HUNT EX-CONVICT WITH BLOODHOUNDS

ROScoe TURNER ELUDES SHERIFF AND POSSE AFTER ALL NIGHT CHASE.

## LIVED NEAR FRANKLIN GROVE

Man Who Threatened Neighbors With Guns and Razors Makes Escape After Exciting Chase.

Roscoe Turner, the ex-convict who terrorized a neighborhood north of Franklin Grove and to arrest whom Sheriff Reid was sent yesterday afternoon eluded a posse of at least twenty men and two bloodhounds in a chase lasting until one o'clock last night, and made his escape, probably on a Burlington train which he is believed to have boarded at Honey Creek, a small station four miles east of Oregon and about 13 miles north of Franklin Grove.

When Sheriff Reid asked for Turner at the Dutcher farm, where the "bad man" had been employed, yesterday afternoon, he was informed that Turner was at work in the hay-mow. Accordingly the officer called to him, but after waiting a few minutes and receiving no answer, started an investigation which showed that the fellow had escaped, probably through a rear opening in the mow.

### Farmers Help Official.

The aid of several farmers was enlisted and a posse was soon formed and a search through the neighboring country was instituted. However, no trace of the fugitive could be obtained and accordingly a call was sent in for Harry Presbry's two blood hounds of Rock Falls.

The man-hunters were brought to Dixon on the 9 o'clock interurban car and hurried to the Dutcher farm in an auto. The dogs quickly took the scent and hurried straight north, continuing in that direction, struggling madly at their leashes. They kept on straight to the little depot at Honey Creek where they stopped, and although considerable time was spent in that vicinity the animals failed to again pick up the scent, indicating that the fugitive had boarded a train at that place.

Accordingly the officers gave up the chase and returned to Dixon, arriving home at about 5 o'clock this morning. The efforts to get Turner will not be ceased and officers of the Burlington road have been asked to ascertain if possible, what train he boarded at Honey Creek. Descriptions of Turner will be sent out, as it is believed he is a menace to the public and should be placed in custody. He is about 35 years of age, clad in rough working clothes and black hat.

Turner was under arrest in this county about three years ago, when he was charged with an attempted assault on a woman in the central part of the county, but sufficient evidence to hold him could not be secured and he was released.

Roscoe Turner, as he is called around Franklin Grove, was first picked up by the local sheriff's office July 31, 1911, on a charge of attempted rape in Maytown. On August 29, the same year, he was returned as a parole violator. He was sent to the state penitentiary in Joliet from the southern part of the state on a burglary charge, and later paroled, to his brother-in-law, Charles Strong, near Franklin Grove. The name under which he went to the penitentiary was McCoy. He is 32 years old.

### COMPLETE WORK HERE.

W. G. Hartshorn of Nelson township returned to his home today after seven weeks' labors on the county tax books. Mr. Hartshorn has assisted with the tax work every year for twelve years and his expert services could not very well be dispensed with at the court house during this period of spreading taxes.

### DRILL TONIGHT

Company G will meet for drill to night and a full attendance of the members is ordered by the commanding officer.

Chas. W. Schafer of West First street is very ill.

## IN THIS VICINITY SINCE YEAR 1853

ARRANGEMENTS FOR FUNERAL OF MRS. McNALLY WAIT WORD FROM SONS.

Because her sons can not arrive here from their homes in California until Saturday, it has been impossible to make any arrangements for the funeral of Mrs. Mary McNally, who died at her home on Crawford avenue yesterday. It is expected the sons will be here in time for the services Saturday morning; however definite arrangements of the time of the last sad rites will be made later.

Mrs. McNally was born in Glasgow, Scotland, in March, 1833, being married in her native land in 1850. She came to America in 1853, coming immediately to this vicinity. For the past twenty years she has resided in Dixon. She is survived by four sons and two daughters, to whom the condolence of many friends is extended. They are: Thomas and Alexander, Bloomington, Cal.; Henry, Redona, Cal.; James, Tracey, Minn.; Mrs. Wm. Rock, Nelson township, and Mrs. P. J. McCaffery of Marion township.

## MRS GROVER CLARK DIED IN THE WEST

WIFE OF FORMER PRESIDING ELDER PASSED AWAY ON THURSDAY

Rockford, Jan. 19.—Word has been received of the death at Pasadena, Cal., Thursday of Mrs. Grover Clark, wife of the well known Methodist clergyman and mother of Mrs. S. H. Wirshing, wife of the pastor of Grace M. E. church, of this city. Mrs. Clark had been an invalid for 12 years, but it was not understood that she had been ailing more than usual.

Rev. Grover Clark is well known throughout Rock River conference, having been presiding elder of the Dixon district, succeeding Rev. G. R. VanHorne. He closed a pastorate in Chicago as his last public service and they went to Pasadena to reside something more than a year ago.

## MACADAM WINS ON EAST CHAMBERLAIN

SCHEME TO BRICK THE STREET WAS ABANDONED THIS AFTERNOON.

The board of local improvements at a meeting held this afternoon at the city hall adhered to the original scheme for macadam roadway on E. Chamberlain street and North Jefferson avenue, on which several property owners asked for brick at a former meeting of the board. Today a majority of the property owners appeared by petition and protested against the brick pavement, the result being the adherence to the original plan.

### FARM HOUSE BURNED.

A small house on the J. C. Heckman farm, three miles northwest of Nachusa, was destroyed by fire Sunday. A chimney fire is said to have been the cause.

## WERE THOSE THE HAPPY DAYS?

## WAGES CAMPAIGN FOR CLEAN FOOD

WAITERS FORBIDDEN TO USE TOWEL PROMISCUOUSLY ON PATRONS' PLATES

The obliging waiter, carrying a neatly folded towel over his left forearm, with which he gives your plate a few skilful wipes as he sets it before you, must cease the practice.

This will, no doubt, be considerable of a shock to the regular and intermittent patrons of the public dining rooms. Many a waiter has won his way into the hearts of those whom he serves by these solicitous actions. The plate seemed to clean as he set it down, and the food became appetizing in proportion.

**Calls Practice Insanitary**  
But the practice is most insubstantial according to State Food Inspector Charles Wandrack, who has begun the work of inspecting every place in northern Illinois cities, where food is manufactured, sold or handled for public consumption.

"We watch the waiters carefully," he said. "Invariably we catch them whisking crumbs from the table, dusting the chairs or even wiping portions of their faces with those same towels. They probably do it unconsciously. The towel is on their arm and they use it automatically."

**Cannot Impose on People**  
"With the label laws and the food laws strictly enforced, it is getting hard for unscrupulous business men to impose on the people," Mr. Wandrack said. "As a matter of fact the campaign of education has brought the people up to a point where it is hard to impose on them. Merchants are beginning to realize that it is a good business to live up to the laws and let the fact be generally known and this brings him trade. Those who tend to be unscrupulous fear prosecution and publicity."

### RESCUE EIGHT

**WITH BREECHES BUOY**  
Chatham, Mass., Jan. 21.—Special to Telegraph—Eight men were rescued by the life saving crew with a breeches buoy from the schooner Adelbert Amos, which is on rocks near this port.

### FOUR BLOWN TO PIECES.

Ottawa, Ont., Jan. 21.—Special to Telegraph—Four men were blown to bits and a score were badly injured by the explosion of a boiler in the Horlick Halt building here. The building was wrecked and the damage will total \$450,000.

M. M. Winter has gone to Minnesota for a couple of weeks' visit in various parts of that state. Miss Marguerite Burchell of Elgin is visiting Dixon relatives.

## SEAT SALE OPENS TOMORROW MORNING

PERFORMANCE TO BE ONE OF THE MOST ELABORATE EVER ATTEMPTED HERE.

### IS ALL LOCAL TALENT

Every Participant in Minstrels Will Be an Elk in Good Standing—Get Your Tickets.

The seat sale for the second annual performance of Dixon lodge B. P. O. E., to be held at the opera house next Monday and Tuesday evenings, will open at 9 a. m. tomorrow at Campbell's drug store, and the interest that is being taken by Dixonites indicates that there will be an early rush for seat reservations at that time.

The program for the performances is one of the most elaborate ever attempted in any home talent production in recent years, and the members of the company have worked faithfully and hard to make this year's affair a model to be striven after in coming seasons. The proceeds are to be used in the purchase of a bronze memorial tablet for the "absent brothers" of the lodge, and because of the merit of the performance and its object, packed houses are anticipated each evening. The program as it will be given each evening at 8:15 o'clock will be found on page 3 of this issue of the Telegraph.

## DAMAGE CASE COMES BEFORE COURT TODAY

CASE OF ACE MOORE VS. S. D. & E. RAILWAY IS NOW BEING TRIED.

The case of Ace Moore vs. the S. D. & E. Railway company, in which the plaintiff asks \$1000 damages alleged to have been received in a collision with one of the company's cars Sept. 13, was called for trial in the circuit court this morning. In a collision between a city car and one of Grant's meat market delivery wagons on the evening of the day in question Mr. Moore was thrown to the pavement. The company maintains that Moore drove into the car and that therefore there is no liability on the part of the traction company.

### COMPLETES TRAINING COURSE.

Miss Ethel Deming has completed her training at the Katherine Shaw Betha Training School for Nurses, and during the coming summer will take her state examination.

## PUBLIC DISCUSSION OF TELEPHONE MATTER

MASS MEETING CALLED FOR THURSDAY IN THE CITY HALL

Amboy, Jan. 17.—Aldermen Fensmaker, Edwards and Fisher and City Attorney Leech the committee appointed by Mayor Vaughan to investigate the recent telephone rate raise, met in Mr. Leech's office and decided to call a public meeting of all persons interested, to be held Thursday evening, Jan. 22 at 2 o'clock p. m., for the purpose of talking over the situation and deciding upon a line of concerted action. Representatives of all the city and village councils in the county, and the supervisors of all the townships, will be asked to be present, and a general invitation is extended to all patrons of the telephone lines.

The officers of the telephone company will be given an opportunity to state their side of the case.

## NORTHWESTERN HAD FIRE LOSS TUESDAY

FREIGHT OFFICE AND STORE ROOM WERE BURNED—WERE HISTORICAL

Freeport, Jan. 20.—The office and store room and the back machine shop connected with the Chicago & Northwestern roundhouse, were destroyed by fire early today, but as they were old structures and hardly fit for occupancy, the loss is held to be small. These buildings adjoin the roundhouse on the west and are relics of the early days of Freeport. They were erected in 1854. Records and brass and pipe fittings, together with hose for steam and air, were the principal loss amounting to \$200, although the wooden roof and supports of both buildings were wholly consumed.

The fire is believed to have been caused from sparks from an engine.

### INTERESTING MATCH GAME.

A match game between Elliott and Hoyer on one team and Devine and Self on the other was played at the Valle alleys last evening, some exceptionally good averages being made. The scores:

Elliott	177	164	166
Hoyer	189	159	151
Totals	366	323	317
Devine	180	185	211
Self	156	243	173
Totals	336	428	384

## MRS. JOHANNA BISHOP IS CALLED TO REST

PIONEER RESIDENT PASSED AWAY LAST EVENING—FUNERAL THURSDAY.

## WAS EIGHTY-FOUR YEARS OLD

Was Born in Kilkenny, Ireland, in 1824 and Came to America as Babe in Arms.

Mrs. Johanna Bishop, one of the pioneers of this community, was called to her eternal home at 8:40 o'clock last night, when a life of usefulness and endeavor was brought to an end, death being the result of old age. The funeral service will be held Thursday at 9:30 a. m. at the Bishop hotel, where she has resided with her son Frank for many years. Rev. Fred D. Stone, pastor of the Methodist church, officiating. Burial will be at Lighthouse cemetery in Ogle county.

Johanna Cahill was born in the county Kilkenny, Ireland, April 1, 1829, and had nearly reached the age of 85. As a babe in arms she was brought to America by her parents and her childhood and youth were spent in Pennsylvania, where she was wedded to William Bishop, the marriage taking place in Erie county Jan. 9, 1856.

After the wedding ceremony Mr. and Mrs. Bishop came to Ogle county, this state, and resided on a farm near Lighthouse until 18 years ago, when they came to Dixon. Mrs. Bishop has since resided here, making her home with her son Frank. Her life mate passed away 16 years ago, her survivors being two sons, Frank and George E., both of this city; two grandsons, one granddaughter and two great granddaughters.

Mrs. Bishop will be remembered by many of the older residents of this community as an especially energetic, careful and considerate woman, true to her friendships and with her interest centralized in her home and family. Her passing has stricken another name off the roll of the pioneers of this community, and many friends will tender condolence to the bereaved ones.

## SHOW SHORTAGE IN CATTLE AND HOGS

STATES OF CENTRAL WEST ARE ABOUT FIVE PER CENT SHORT IN LIVE STOCK

Snow's report on cattle and hog conditions this month, which is in all cases coincident with the government report, and always about the same as that of Uncle Sam, shows a decided shortage in stock as compared with a year ago. According to the report there is a shortage of 1,762,000 cattle, nearly 5 per cent and the same percentage applies to sheep, of which there is a shortage of 2,353,000. There are 4,082,000 less hogs than a year ago, the decrease being about 7 per cent. According to Snow, three-fourths of the shortage in hogs and one-half the shortage in cattle is confined to the seven states of the central west, Ohio to Kansas.

### Y. BOWLING TOURNAMENT

Because of the absence of a few of the players it was impossible to complete the first games of the new bowling league at the Y. M. C. A. last evening, although several of the players rolled, and the absentees will be given an opportunity to roll their games later. Tomorrow evening the Raymond and Reid teams will bowl, and on Friday evening players of the Self and Gonnemann teams will have the alleys. A great deal of interest is being shown in this new tournament, in which almost half a hundred men will participate.

### TO HAVE MILLINERY

C. C. Campbell and Miss Louise Thomas of the C. C. Campbell store will go to Chicago tomorrow to purchase a stock of up to date millinery which they will carry at their store.

## LEE TAXES INCREASE ENORMOUSLY IN 1914

"ECONOMY ADMINISTRATION" AT SPRINGFIELD COSTING TAX PAYERS DEARLY

## OVER FIFTEEN PER CENT INCREASE

Lee County Will Pay \$76,225.15 More in Taxes This Year Than Last—State Tax Sears.

Lee county will contribute \$76,225.15 more in taxes this spring than it did in the spring of 1913 according to the completed figures which have been compiled by County Clerk Wm. C. Thompson, whose office force has just completed the spreading of the levies and has prepared the books for the collectors. The increase is largely due to the state tax rate perpetrated by Gov. Dunne in his "economy administration."

There is a big increase in the tax in each township with the exception of Hamilton, in which a reduction of \$13,259.52 is noted, the decrease being due to the fact that the special drainage tax in that township last year was \$15,913.32. The taxes for each of the various townships in the county, showing the totals collected last year and to be collected this spring are:

## EMERY M. JUNE IS CALLED TO REWARD

FUNERAL SERVICE OF MAN WHO DIED AT DIXON HOSPITAL TO BE IN AMBOY.

Emery M. June, age 71 years, 4 months and 28 days, died at the Katherine Shaw Betha hospital at 5:15 o'clock this morning after a lingering illness, during which he suffered from Bright's disease and heart trouble. The funeral services will be held at Amboy Friday at 11:30 a. m. with burial in Prairie Repose cemetery.

The deceased is survived by his widow and four children: Mrs. Sadie Buzzard, Mrs. Eva Buzzard and Miss Minnie June of Dixon, and Milo P. June of Honolulu, H. I. The friends of the deceased and family will tender their sincere condolences to the bereaved relatives.

### TAMPICO MAN DIED HERE.

R. B. Winnans of Tampico, White side county, died at the Katherine Shaw Betha hospital at 9 o'clock this morning, death following an operation which was performed in an effort to prolong his life. The deceased was 70 years of age. The remains will be taken to Rutland, Ill., this evening for burial.

### Y. M. C. A. WON FROM THE POLO TEAM

The Dixon Y. M. C. A. basketball team was again victorious last evening, defeating the Polo Athletic club team in a decidedly close and interesting game, the score being 25 to 23 in favor of the players from this city. A return game will be played in Dixon within a few weeks.

Raincoats at Ten Cents.

A man in Illinois has invented a process to produce and market a raincoat that can be retailed for 10 cents up. These coats are made in the regulation slip-on style, from an integral piece of waterproof paper. Their production cost will be no higher than 5 cents each, and even that figure can be lessened. The coat can be folded up to fit in an ordinary envelope and is particularly adapted to being carried in handbags. The coats can be made of oiled paper or paraffin, vellum parchment paper, which gives the appearance of silkiness at a short distance. The original idea was for the coats to be worn only once, but, after a trial, it was demonstrated that they could be utilized successfully two or three times. The coats are reinforced where the buttons are sewed on and also where the button holes are cut. There are only two seams, both running underneath the arms and down the sides. These seams are cemented by ordinary glue.

## HYOMEI RELIEVES IN FIVE MINUTES

Help Comes Quickly When Hyomei Is Used for Catarrh, Bronchitis or Cold in the Head

Quick and effective relief comes from the Hyomei treatment for catarrh and all troubles of the breathing organs such as stopped up head, sniffles, bronchitis, coughs or that choked up feeling—or money refunded by Rowland Bros., Druggists—You breathe it.

Hyomei as sold by druggists everywhere gives a tonic healing effect to the air you breathe, destroys the catarrhal germs, stops the poisonous secretions, soothes the irritated mucous membrane and makes a marked improvement in the general health.

If you suffer from offensive breath raising of mucus, husky voice, discharge from the nose, droppings in the throat, watery eyes, or any other symptoms of catarrh, use Hyomei at once. It will banish the disease germs in the nose, throat and lungs and give quick and permanent relief.

The complete outfit, including inhaler and bottle of liquid, costs \$1.00; extra bottles of liquid, if later needed, 50c.

Holland Makes More Potato Flour.

According to the American vice-consul at Amsterdam, the production of potato flour in Holland increases rapidly from year to year. The product is also steadily finding markets abroad. The total production is now not less than 275 million pounds annually. The price rules lower now than it did a year or two ago. Much of this flour is finding a market in the United States, where it is used for starch manufacture.—Breeder's Gazette.

## THE KITCHEN CABINET

OUT of eternity This new day is born into eternity.

At night will return. Behold it aforesaid. No eye ever did; So soon it forever. From all eyes is hid. So here hath been dawning Another blue day; Think wilt thou let it Slip useless away? —Thomas Carlyle.

GOOD THINGS FOR THE TABLE.

A delicious filling for cakes which will always be asked for again is Lemon Honey. Grate the rinds of three well-scrubbed lemons, press out and strain the juice; put all together in a double boiler, add a quarter of a cup of butter and a half pound of sugar. When very hot mix two spoonfuls with the well-beaten yolks of six eggs. Then add the eggs to the mixture and stir until smooth and thick. This filling will keep in a cool place for some time.

Sea Foam Popcorn.—Discard all unpopped kernels from four quarts of corn and place in the oven to warm. As soon as a cup of granulated sugar and a quarter of a cup of water boils take from the fire and add a few drops of pistachio coloring, then pour over the corn in a fine stream. Stir briskly and sprinkle with powdered sugar to separate the grains, then turn out on waxed paper.

Steamed Fruit Roll.—Roll good rich biscuit dough half an inch thick, spread with butter and a layer of good jam or marmalade. Roll tight and place in a steamer on a plate and steam for half an hour. Serve with any desired sauce.

Burnt Almond Fudge.—Brown blanched almonds in the oven and chop enough to fill a cup. In a granite pan brown a cupful of granulated sugar well melted; add two-thirds of a cup of milk, and when the sugar is all dissolved, add a tablespoonful of butter and another cup of sugar. Boil for five minutes, then test in cold water; if creamy when stirred, the candy is done. Flavor with a few drops of almond extract, and turn out to cool in a buttered dish.

Gelatin Filling for Cake.—Dissolve two tablespoonfuls of granulated gelatin in a tablespoonful or two of cold water. Boil two cups of granulated sugar and eight tablespoonfuls of water until it threads; pour over the gelatin, flavor, then beat till thick and white. Add a little chopped chrysanthemum fruit.

Nellie Maxwell.

## THE KITCHEN CABINET

H. WHAT is life without a friend To dissipate the gloom? A path where naught but briars grow. Where flowers never bloom. 'Tis friends who make this desert world To blossom as the rose; Strew flowers o'er our rugged path, Four sunshine o'er our woes.

THE GIRL AND THE CHAFING DISH.

For pure enjoyment, give us a chafing dish with a few good materials to prepare, and a good time will surely be the answer. From soups to lobster salad, there is nothing the mind of a woman will not dare. The accompaniments of sandwiches and relishes are, of course, essential.

For the young woman who entertains her girl friends at college or away from home, canned things are the best and easiest to prepare. Many delicious dishes may be prepared from canned chicken, lobster, salmon and peas.

Chicken Wiggle.—Melt a tablespoonful of butter, add two tablespoonfuls of flour, and when smooth add a pint of milk very slowly, and boil. Then add a can of chicken, a can of peas, salt, pepper, and just before serving, a beaten egg. Shrimp Wiggle is prepared the same way, using shrimps instead of chicken.

Salmon Hollandaise.—Melt a tablespoonful of butter, add a tablespoonful of flour, and when smooth add a can of salmon and a can of peas. Stir until hot. Serve with lemon or put lemon juice into the dish before serving. Serve on crackers.

A spread without candy is not to be thought of. One nice candy which is made without cooking is the following: Take a half pint cup, drop into it a white of egg, then pour in cold water to half fill the cup. Stir until it is foamy, then mix as much powdered sugar into it as it will hold, until it can be handled. Then add flavor, color. Add fruit to make a variety of kinds.

Delicious Salad.—To go with any spread this will honor the occasion: A can of shredded pineapple drained from its juice, two cups pecans and half a pound of marshmallows. Mayonnaise with whipped cream to soften it. This should really be called Ambrosia, a dish for the gods.

Nellie Maxwell.

## MAUVE WITH CHIFFON

CALLING COSTUME THAT IS IN HEIGHT OF FASHION.

Most Effective of the Combinations So Popular This Season—Effective Touches Give Distinction to the Model Sketched.

Satins of subdued luster with fur to give them the appearance of weight and warmth, and lace or chiffon to soften the effect, are as satisfactory for calling costumes as anything seen in the winter collection, and the sketch offers an effective suggestion.

In the original, two shades of mauve are used with chiffon in a deeper shade than the charmeuse. The charmeuse skirt is gathered slightly at the waist and then draped attractively just above the knees in front by means of what is known as "lifted drapery." In the blouse the charmeuse is only used in a five-inch band running about the lower part of the white net foundation just over the belt. This is veiled by the overblouse of chiffon, which is simply made with three-quarter-length kimono sleeves and a rounded-out neck filled in by the net yoke of the foundation.

The collar is finished with a plaited ruffling of chiffon and a narrow cravat of ermine is knotted closely in front. Bands of ermine trim the sleeve ends, and a close row of small steel ball buttons trims the left side of the blouse. A girdle of black chiffon is crisscrossed about the waist, and the sash ends are tied in a bow at the hem of the tunic in back.

The tunic is gathered at the waist and at the lower edge and given a heading of itself as a finish. Another

Charmeuse Chiffon and Fur Make an Irresistible Combination.

row of steel buttons is started from over the right hip and describes a line down that side, slanting a little toward the front.

In such a gown as this its main attraction lies in the draping. In all modes, whether straight or draped, the "flow of line" is painstakingly preserved, so that, however complex or intricate a design may be, it retains an appearance of simplicity. Exaggerations of any sort are entirely taboo. Severity is not only allowed, but demanded, but the line between it and eccentricity of effect is as sharply drawn as the modes of a far gone period from the present. Graceful touches, such as the little fur cravat in this model, make for much of the success in all the new designs, and dressmakers are kept busy devising quips and turns of an exploited idea. For while the similarity of many of the new features is undeniable, the difference is just as distinctive. Too much care cannot be exercised in working out these details, for so important are they that any slightest change modifies the effect.—Washington Star.

The "Fun-Sun" Box.

In a home where there are three children, the problem of amusement on rainy days was to be considered. A large box was covered with green dekin, and the words "Fun-Sun" stenciled on it. This was placed in the nursery. Into this box went rejuvenated toys, pictures, anything thrown aside and mended, or unusual scraps. From time to time the children themselves brought from their allowances some little thing for the box. It was opened only on rainy days or in illness. Last year their father added three jigsaws and several strips of thin board. It is a treat for the children to open this box, for there are always some new things in it. Now rainy days have no terror for the children, who turn contentedly to the "Fun-Sun" box.

One Initial.

When only one initial is desired for marking the letter of the last or family name is used. The initial for a man's handkerchief is from one-half to an inch in size, and should be placed on the diagonal lines in one corner.

Get a 10-cent box.

Are you keeping your bowels liver, and stomach clean, pure and fresh with Cascarets, or merely forcing a passageway every few days with Salts, Cathartic Pills, Castor Oil or Purgative Waters?

Stop having a bowel wash-day. Let Cascarets thoroughly cleanse and regulate the stomach, remove the sour, and fermenting food and fowl gases, take the excess bile from the liver and carry out of the system all the constipated waste matter and poisons in the bowels.

A Cascaret tonight will make you feel great by morning. They work while you sleep—never gripe, sicken or cause any inconvenience, and cost only 10 cents a box from your druggist. Millions of men and women take a Cascaret now and then and never have Headache, Bloating, Coated Tongue, Indigestion, Sour Stomach or Constipated Bowels. Cascarets belong in every household. Children just love to take them.

## Bright Eyes—

Good Child

Naturally is as it should be. One depends upon the other. For only perfect sight can get the more perfect image of things acting in the scenes of life.

IMPERFECT IMAGES

falling upon the retina are certain to produce only imperfect mental conceptions. Hence defective eyes fill the mind of the child with

ERRONEOUS IDEAS

which deceive and mislead. Scientists declare that 72 per cent of nervous, sensitive girls and backward, surly boys are so because of

DEFECTIVE SIGHT.

No child can have a pure, sweet disposition who receives only false images of people and things. But it does require clear, definite, real and true eye images to build a noble character.

#### PRACTICAL HINTS.

When making hard soap, get a good patent lye. Follow the directions for making soft soap, put in three pints of water and five pounds of fat and a handful of borax. Mark off into cakes before it hardens.

Devonshire Cream.—This is so delicious that more people should know how it is prepared. Put two quarts of fresh milk on the stove in a pan of cold water, bring very slowly to the scalding point and keep it hot for nearly an hour, being careful to never allow it to boil; then remove from the stove, set in cold water with ice for six hours. By this time the cream is all collected on top, which is removed with a skimmer and kept until ready to serve.

Rice Flour Pound Cake.—Cream a quarter of a cup of butter with one cup of powdered sugar, add the beaten yolks of two eggs, one teaspoonful of vanilla, the grated rind of a lemon, and half a cup of cold water. Mix thoroughly and add one and a half cups of rice flour, sifted with one and a half teaspoonsful of baking powder. Add the whites of the eggs beaten stiff. Bake in small gem pans and cover with fancy frosting. Garnish with candied cherries.

A teaspoonful of lye in a boiler of clothes will whiten them wonderfully. Vinegar and salt will clean brass well, though it is not pleasant to use, if you have any broken places in the skin of the hands.

German Cream Soup.—Cut thin slices of bread as thin as shavings, put them with a small amount of butter into a saucepan and stir until well browned, then pour over enough boiling water to make the amount of soup needed. Add salt to taste, and let the water boil up; then remove the saucepan and stir in a large cup of sweet cream. If a richer soup is desired, add more cream to the soup. Be sure to have it well salted, or it will taste flat. This is a good recipe to give the sick.

Scraped beef is another good dish to serve the sick. Scrape round steak with the sharp edge of a spoon; season well and cook in a hot frying pan.

Nellie Maxwell.

BEING friends is joy enough  
If folks are made of proper stuff;  
The tingling clasping of the hands,  
The smile of one who understands;  
Words in due season, or the calm  
Of silence that is blessed balm—  
I pledge, until this old world ends  
The goodly folks who are good friends.

#### CANDY FOR THE LITTLE ONES.

Candy which can be pulled is always a delight to the childish heart, and taffy will hold a warm corner.

Taffy.—Take two and a half cups of brown sugar, half a cup of butter, four tablespoonsful of molasses, three tablespoonsful of water, two of vinegar, and boil twenty minutes, adding a teaspoonful of vanilla. Cool and pull.

Peanut Candy.—This is most delicious when made properly. Shell a pound of peanuts and crush them with the rolling pin until like coarse bread crumbs. Boil together, stirring constantly, a pound of light brown sugar and six ounces of butter for eight minutes from the time the first large bubble appears. Add the nuts and pour at once into a greased pan. Mark off in squares almost immediately, as the candy hardens very quickly.

Mexican Candy.—Boil together two cups of brown sugar, one cup of milk, one cup of granulated sugar, one tablespoon of butter and a tablespoonful of starch. Cook all together until a hard ball is formed when dropped in water. Flavor with vanilla, add a cup or two of nuts, beat until nearly cold, then pour out on a plate. Slice when cold.

Cocoanut Cream Candy.—Boil together a cup and a half of sugar, a half cup of milk and two teaspoonsful of butter twenty minutes, stirring until the sugar is dissolved. Remove from the fire and add a cupful of cocoanut and a half teaspoonful of vanilla; beat until creamy and pour into buttered tins. This is especially delicious poured over chocolate fudge.

Fig Brittle.—Melt one pound of white sugar in a granite sauce pan; stir in one-half pound of chopped figs, then pour into a greased pan an inch thick. Cut in strips and serve.

Nellie Maxwell.

See?  
The man who plays the bass drum makes more noise than anybody else, but he doesn't lead the band. There is a moral to this.

#### TRIAL OF STOITA

##### STARTS TOMORROW

The trial of the first criminal case to come before the January term of the circuit court will start tomorrow morning when the case of the People vs. Michael Stoita will be called. Stoita is charged with rape, the prosecuting witness being a 13 year old girl.

#### UNDERWENT OPERATION.

Mrs. Frank Abbott, daughter of Mrs. Edward Howard of Nelson, underwent a serious operation today at St. Francis hospital, in Freeport. She is under the attendance of four physicians.

Warren Badger and daughter, Miss Lucy, left last evening for Nebraska.

#### Experience Substitutes.

The brilliant Holbrook Blinn was defending the sociological play, "The Guilty Man," wherewith the Medical Review of Reviews will follow up "Damaged Goods." "Plays of this kind," he said, "teach girls and women what they ought to know. Experience teaches men. A man goes through a bitter experience; he comes out of it enlightened, and society forgiving him, he leads thereafter a good, clean life. But girls and women can't profit by experience in this way, for society never forgives the experiences of girls and women—and hence the necessity for plays like "The Guilty Man," which might be called experience-substitutes. For experience, veritable experience, is, alas, for a girl or a woman, a comb that comes into her possession after she has lost her hair."

#### Presidential Appetite.

In the course of his presidential journey, M. Poincare has been dined and wined uncommonly well, but the menu provided by the patriotic inhabitants of Toulouse is probably the most colossal. Indeed, it is gargantuan. The hors d'oeuvres included such trifles as 50 kilos of sausage, a barrel of olives and 60 kilos of butter, followed by 350 kilos of salmon and 300 kilos of assorted pates, galantines, and the like. Then come 500 kilos of "filet de boeuf," 800 head of poultry, 100 kilos of salad, and twice that amount of ice cream, besides 9,000 assorted cakes. After this last item, 60 kilos of coffee, and 200 kilos of fruit seem insignificant. Last, but by no means least, come the liquid refreshments, 6,000 bottles of red and white wine, and 700 of champagne.

## THE EPILEPTIC COLONY.

Next week the members of the state board of administration will come to Dixon and inspect the site the local boosters have selected and secured options on to be sold to the state for the new one million dollar institution for epileptics to be built by the state within a short time.

The land is excellent, the drainage can not be excelled and the natural beauty of the thousand or more acres available is certainly unsurpassed. Dixon is centrally located as regards the territory that needs such an institution and she is situated on two of the biggest railroads in the state. One line is direct from the southern coal fields and runs through Springfield and all the riches of the state of Illinois, and the other is a main line from Chicago. One of the railroads runs right through the land selected for the site, and with the switching facilities in Dixon, everything coming into the institution could be brought right into the ware houses without moving from the car.

The site runs along beautiful Rock river, commencing directly above the Rock River Military academy. Ice fields would be right at hand to cut and store in the winter. There is flat, fertile prairie and rolling woodland. The water is fine, and as Charlie Sheffield says about Grand Detour, "it's a garden of Eden all the time."

Now, what more can the board of administration ask? If there is anything more they require we feel sure we have merely overlooked the mention of it, for we know we have it, even to the democratic votes.

Unless the location of the colony is a purely political proposition, as some were unkind enough to hint about the insane asylum which Dixon lost to former Gov. Deneen's old home, Dixon will get that epileptic colony. For true merit there is no place equal to it. Dixon wants that colony, Governor Dunne and members of the board of administration. Look us over with a careful and impartial eye, gentlemen. We are confident that such action will award the prize to us.

## HITCHING POSTS NEEDED.

In many places near the downtown part of Dixon the hitching posts have been removed by acts of the city council, and they are not replaced. The result is that on a big Saturday when many farmers are in the city there are not nearly enough posts to go around. This makes business for the feed sheds, but it costs the farmers money and there have been occasions recently when even the feed sheds could not accommodate the rigs in the city.

If we want our friends, the farmers, to come in and visit us, we must prepare for their comfort when they get here, and if the day is clear and they do not want to drive into a feed barn they should have posts to tie to. This seems a small matter, but it is of considerable consequence and should be taken care of immediately by the city council or the Citizens' association.

## 20,000 PEOPLE.

Dixon is growing, growing rapidly, and this is merely the start. If Dixon keeps up the present gait, the one pursued for the past couple of years, it is not a far cry to promise that before many winters have passed Lee county's metropolis will be a city of 20,000 souls.

As it is now, we have a class of residents each one of whom is worth two of the ordinary sort and Dixon has the spirit and what there is of it has the appearance of a city again as large, but of course, people on the outside are not aware of all this and they will be more impressed by the census figures of 1920 than they are with the bouquets we may hand ourselves.

Dixonites are patriotic. We are all for Dixon, first, last and all the time, and we have faith in the city and confidence in our ability, and the encouragement and inspiration of recent success in the booster line to help us in a campaign for "A Dixon of 20,000."

## EYESIGHT AND AUTOMOBILE DRIVERS.

Owing to the rapidly increasing number of automobiles, used for business as well as pleasure purposes, every state should require that all applicants for a license to drive a motor vehicle pass an eyesight test. All railroads and many electric car line companies require such a test. Yet, in the great majority of states, the prospective driver of an automobile need only affirm in his application that he has no physical or mental infirmities. When one stops to consider that a railroad engineer drives over a steel track, guarded by signals and watchmen, and over a route with which he is thoroughly familiar, whereas the autoist drives over any road he chooses, not protected by lights and signals, and in some cases traveling almost as rapidly as a locomotive, it is plainly imperative that he possess as good sight as the man in the engine cab. If one eye is highly defective the field of vision is greatly impaired and the driver less able to maneuver his car in an emergency. Paris, Munich and other European cities have seen the necessity of an examination of the eyes of taxi drivers and are strict in the enforcement of this protective measure. It is more than likely that defective vision is next in order of frequency to the overuse of alcohol drinks as a cause of automobile accidents. We can, and should, protect pedestrians and drivers of vehicles from injury to a much greater extent than we do. Each applicant for a license to drive a motor vehicle should be required to give satisfactory proof of at least moderately good vision.

## ELECTRICITY AND RADIUM IN AGRICULTURE.

T. Thorne Butler recently gave an interesting lecture before the British Royal Society of Arts on electricity and radium in agriculture. He said that a great deal of experimental work was going on now with radio-active material, which gave in some cases such remarkable results that radium must be taken into serious consideration from an agricultural point of view. The residues resulting from radium extraction, which contained only a milligram or two of radium to the ton, and were at present regarded as of negligible value, were sufficiently active to produce marked effects on germination and greatly to increase the size of the plants and crops. In some cases an increase of 300 and 400 per cent had been obtained. The stimulating effects of a new type of combined high-frequency and positive electricity apparatus on very young chickens was also described. Not only was the loss of the very young birds during the first few days after hatching in incubators minimized, but the chickens grew at more than twice the normal rate, thus costing less than half the usual amount to grow.

## Winter Night

By WALT MASON

Hail, Winter and wild weather when we are all together about the glowing fire! Let frost be e'er so stinging, it can't disturb our singing, nor can the Storm King's ire. The winds may madly mosey, they only make more cozy the home where we abide; the snow may drift in billows, but we have downy pillows, and good warm beds inside. The night indeed has terrors for lonely, lost wayfarers who for assistance call; who pray for lights to guide them—the lights that are denied them—may God protect them all! And to the poor who grovel in wretched hut and hovel, and feel its icy breath, steps slow and lagging, the night seems kin to Death. For cheery homes be grateful, when Winter, fierce and fateful, comes shrieking in the night, for books and easy rockers, for jarders filled and lockers, and all the warmth and light.

SEEK TO REMOVE MINE MEET

Will Try Again Today to Quit Indianapolis.

Indianapolis, Jan. 21.—Two attempts were made to remove the convention of United Mine Workers of America from this city, but both failed. It is probable that another effort will be made when the resolutions committee reports today. Two delegates, Samuel Montgomery of Montgomery, W. Va., and W. R. Fairley, Pratt City, Ala., started for Washington to work for the resolution before congress authorizing federal investigation of the copper strike in Michigan and the coal strike in Colorado. William Green, international treasurer, said the organization spent \$1,621,942 in relief extended to striking members during 1913. He added that the organization now had more than \$3,000,000, "every dollar of which can be used for defensive purposes."

PROBE TRAGEDY AT JAIL

Investigators Find Convicts Were Given Outside Aid.

McAlester, Okla., Jan. 21.—Three three convicts whose dash for liberty from the state penitentiary here cost the lives of themselves, three prison officials and former United States Judge John R. Thomas had outside aid was indicated by evidence heard by members of the board of prison control. The revolver used by David Kuntz, leader of the mutinous prisoners, was identified as one recently sold by a local hardware dealer. Who made the purchase has not been established. It was also learned that a horse and wagon, without a driver, were standing at the prison gates when the men made their break.

## SOLONS LAUD MESSAGE

Members of All Parties Give Their Views.

Throughout New York's Financial District There Is General Satisfaction Over Wilson's "Note."

Washington, Jan. 21.—Congressmen of both the Republican and Progressive parties found their own aims and principles set forth in President Wilson's message, according to comment heard about the lobbies. They were practically unanimous in the opinion that the president's message was especially well thought out and comprehensive, while the majority gave almost unreserved approval of the plan for trust legislation outlined.

Following are some of the expressions of opinion by leaders in congress:

Representative Mann, minority leader—In the main I liked the message. It adopts the plan which I had when chairman of the committee on interstate and foreign commerce for the control of the stock and bond issues of railroads. It is probably the strongest message in favor of the powers of the general government, as opposed to state power, which has been sent to congress in years. So far as it goes it is practically an abandonment of the doctrine of states' rights.

Senator William Alden Smith of Michigan (Rep.)—The president's address is most interesting. Of course, he has attacked the problem from his own point of view. I have no doubt but what his plan will do some good.

Senator Kenyon of Iowa (Rep.)—I am particularly pleased with that section of the message in which the president urged the enactment of a law making guilt personal. I am not sure in my own mind about the industrial commission idea, however. Every other feature of the message was fine.

Senator Norris of Nebraska (Progressive Rep.)—I cannot withhold my praise of the good features of the anti-trust message. As far as it went it was fine.

Representative Murdock of Kansas, Progressive leader of the house—The president's plan is inadequate. Like all inadequate plans, it will render the trust evil more acute. It will not remedy.

Senator Bristow of Kansas (Rep.)—If the bills that spring from the president's suggestions are as reactionary as the currency bill I certainly will not support them.

Speaker Champ Clark—It's a very, very fine message—that tells the whole story. How can one say more? Senator Kern of Indiana (Dem.)—The message will command the admiration and confidence of the country.

New York, Jan. 21.—Throughout the financial district there was general satisfaction over President Wilson's message.

## THREAT SCATTERS SOLONS

Representative Johnson of Kentucky Strikes Man.

Washington, Jan. 21.—A fist fight between Representative Johnson of Kentucky and John R. Shields, a Washington attorney, broke up a meeting of the house committee on District of Columbia on Tuesday. After the two men had clashed and several blows were struck, Representative Johnson broke away, shouting: "Get me my pistol. I'll kill him." Mr. Shields was knocked down. A dozen were in the room when Johnson started away, screaming for his pistol, but his demand for firearms soon emptied the office. When he returned only the clerks remained. The clash between the two men followed a hearing on a bill to increase the salaries of crossing policemen, whom Shields represented.

## MASS MEETING TO DISCUSS PHONE RATES

AMBOY CITY COUNCIL INVITES OFFICIALS AND PHONE PATRONS.

A mass meeting of patrons of the Farmers' telephone lines is to be held at the city hall at Amboy tomorrow at 2 p. m., to which the Amboy city council has invited all the 'phone users, members of the governing bodies of every city and village in the county and board of supervisors.

The meeting is for the purpose of devising ways and means of bringing the 'phone rates charged in the county before the new state public utilities commission, and ask for a reduction in service rates, since the companies have adopted a system of charging for all toll calls.

## JAILED FOR ASSAULT.

## LORD STRATHCONA OF CANADA DIES

\$100,000,000 Is Fortune of Peer Who Rose From Humble Origin.

## TITLE GOES TO DAUGHTER

Honors and Wealth Followed Activity in Promotion of Canadian Pacific —Was James J. Hill's Associate.

London, Jan. 21.—Lord Strathcona and Mount Royal, high commissioner for Canada, died at 1:55 o'clock this morning. Lord Strathcona died peacefully in sleep. He had been practically unconscious since 4:30 o'clock yesterday afternoon.

Lord Strathcona's death was due to prostration, the result of a severe attack of catarrh. He had been ailing, however, ever since the death of his wife on November 12 last, which proved a great shock to him.

Hon. Mrs. Robert Howard, who was Margaret Charlotte Smith, Lord Strathcona's only child, is his heir. She not only will inherit his fortune, estimated at more than \$100,000,000, but also his title.

Lord Strathcona's life spanned nearly a century and his active career a full three-quarters. He had only one senior in the house of lords, the earl of Wemyss, who is in his ninety-sixth year.

"The best way to live to an old age," he explained when found at work at his desk in London on his ninety-third birthday on August 6 last, "is by not thinking about age at all, but just going on doing your work."

For six years he had been periodically reported as "about to resign" the post of high commissioner for Canada, but it was death and not his resignation which terminated his work.

Life Romance Beyond Fiction. The most extravagant dreams of the little Scotch boy who became Lord Strathcona, largest land owner in the world and for three-quarters of a century a power in Canada, were realized in a life of romance such as never finds its way into books of fiction because it is filled with too many improbabilities.

Donald Smith, an undersized but ambitious boy, dreamed of leaving his humble surroundings in a Scotch village to become a fur trader in the great American northwest, became a clerk for the Hudson Bay company, climbed from post to post of responsibility until he became a factor in the company, was made resident governor of the Hudson Bay country, pressed the Canadian Pacific railroad across the continent and later—in his declining years—was made high commissioner to London and a peer of the British empire—that is the romance contained in the life of Lord Strathcona.

Unassuming to Last. But the realization of his most extravagant dreams left Lord Strathcona and the unassuming, hard-working, thrifty Scotch boy one and the same person. The friends of the struggling Scotch boy also were the friends of the powerful Lord Strathcona if they were sufficiently robust to survive the years that witnessed his growth.

Lord Strathcona was an associate and admirer of James J. Hill and Andrew Carnegie. He was a political and financial factor in the growth of Canada influence extended throughout the United States and whose advice was sought by business men in every corner of the continent. He enjoyed the reputation of being an example of the kind of rich man a nation loves to

honor—whose fortune was founded upon his own physical labor and devoted to the betterment of his country and its people.

500-Mile Dash Saves Sight. One of the incidents of his life that he never forgot to describe when talking to his friends—experiences occurred after he had been in the service of the fur company a few years. The extreme cold of the arctic regions affected his eyes and he was threatened with blindness. It was the dead of arctic winter. Getting to London was absolutely impossible and a trip to Montreal meant a perilous dash over the ice fields for 500 miles. But Donald made the dash, saved his sight and became the center of attention from other officials of the company. It was at that time that he was accepted as one of the future great men of the country.

Lord Strathcona's wealth made him see more clearly the real needs of the poor, and he gave with a willing hand to all who he thought really needed his assistance.

Lord Strathcona was very close to the royal family, and was highly esteemed by King Edward. He received greater special favors from Queen Victoria than any other peer in the United Kingdom.

Eats Many Tons of Food. An English scientist with a passion for statistics has been computing the amount of food that the average man eats in a lifetime. He asserts that in the process of attaining his three score years and ten he eats about fifty-four tons of solid food and fifty-three tons of liquid. He will have eaten 12,000 eggs, 400 pounds of cheese, about four tons of fish, and, could it have been all baked at once, a loaf of bread equal in size to an ordinary family hotel. But think of the vegetables devoured! Our scientist says a train three miles long would be required to bring a life's supply to the average man.

Japanese Entertainments. Stage management in Japan is somewhat eccentric. When an actor is killed during the play a man in black rushes on and holds a large cloak before the supposed corpse, who rises and runs off the stage. The scenes are never shifted, but the whole stage revolves upon wheels; while between the acts the children among the audience rush behind the curtain and play until the drum beats for another act. The performance begins at 10 a. m., and the audience provision themselves for twenty-four hours, curling themselves up on mats and smoking the whole time.

No Excuse. The outrageous extravagance of some of the millionaires of New York led Lord Haldane, at a dinner in Albany, to say: "The extravagance, the waste that one sees on the part of the American rich is very blame-worthy." "But, Lord Haldane," said a Boston woman, "our rich are so very rich, you know. Why shouldn't they be extravagant and prodigal when they have incomes of \$2,000,000 or \$3,000,000 a year?" "Madame," said Lord Haldane, "would you excuse a cook for oversalting your dinner because he had a superabundance of salt?"

The Knocker. After God had finished the rattlesnake, the toad and the vampire, he had some awful substance left, with which he made a knocker. A knocker is a two-legged animal with a cork-screw soul, a water-sogged brain and a combination backbone made of jelly and glue. Where other people have their hearts he carries a tumor of rotten principles. When the knocker comes down the street honest men turn their backs, the angels in heaven take precipitate refuge behind their harps and the devil bar-locks the gates of hell.—Missouri Brunswick.

## FORT BLISS IS PRISON

Federal Army Put Under Guard at Texas Post.

Huerta's Soldiers Threaten to Murder American and Aid Is Asked of State Department.

El Paso, Tex., Jan. 21.—United States cavalrymen are guarding 3,300 Mexican federal soldiers and their 1,639 women and children, camp followers, who were forced to seek asylum in this country during the battle at Ojinaga, Mexico, and placed in Fort Bliss for an indefinite stay on the footing of prisoners of war.

In defense of his abandonment of Ojinaga, General Mercado, whose trial by court-martial has been ordered when he returns to Mexico, charged Gen. Pascual Orozco with cowardice and insubordination. He said Orozco repeatedly had robbed the federal provision train, had become arrogant, had refused to attack the rebels and had abandoned his own troops.

General Mercado said he was ready to go to Mexico City to stand trial by court-martial.

Vera Cruz, Mexico, Jan. 21.—In well informed military circles it is said that the conferences of John Lind and Flores Magon will result in Senor de la Barra taking the acting presidency, and all the generals now occupying civil positions, from Huerta down, will take the field and prosecute an active campaign against the rebels.

Washington, Jan. 21.—New York bankers who recently asked the state department's advice as to the best means of protecting the Mexican bonds, amounting to about \$150,000,000, which they hold, have been informed by Solicitor Folk that the department has no suggestions to offer at present.

Laredo, Tex., Jan. 21.—Mexican federal troops encamped on the San Enrique ranch, near the border, have renewed threats to kill Otto Winters, American manager, and destroy the property, which formerly belonged to the Madero family, according to information received by Consul Garrett at Nuevo Laredo. Mr. Garrett has urged the state department to make formal demands in behalf of Winters.

## PRESIDENT O. K.'S ANTI-TRUST BILLS

Most Drastic Would Compel Corporations to Sell Wares at Uniform Price.

### DISCUSSED AT CONFERENCE

Measures Not President's Final Word, as Extensive Hearings Will Be Held—To Be Welded Into One Composite Statute.

Washington, Jan. 21.—At a secret conference at the White House President Wilson gave approval to four of the five administration bills which are designed to carry out the anti-trust program.

The bills were gone over at length, but instead of introducing them in the house, as had been contemplated, tentative committee prints will be prepared and distributed to the Democratic members of the house judiciary committee and the senate interstate commerce committee, and extensive hearings will be held.

These measures, it was stated authoritatively, do not represent Mr. Wilson's final word on "anti-trust" legislation. He believes if business can show that any mistakes have been made or any unfair conditions have been imposed, the bills should be changed.

Nevertheless, it is the expectation that these bills will remain practically unchanged. After hearings have been granted and committee consideration given they will be welded into one composite statute and so put through the house and senate.

### Provisions of Measures.

The four measures are: Providing for the creation of an interstate trade commission of five members at a salary of \$10,000 each, the commission to absorb all of the present functions of the bureau of corporations and to participate with the courts in settling the status of corporations both before and after decrees have been entered by the courts. To prohibit absolutely interlocking directorates in interstate railroads and national banks and similar directorates in industrial corporations which are potentially or actually competitors.

To define explicitly what constitutes a conspiracy in restraint of trade which is designed to supplement but not destroy the Sherman anti-trust law and effectually limit the exercise by the courts of the so-called "rule of reason."

To define general trade relations, one of the chief purposes of which will be to prevent "cut-throat competition," and which also will effectively outlaw so-called "exclusive contracts."

The administration program will, of course, include a bill giving the interstate commerce commission regulatory power over the issuance of stocks and bonds by railroads, but this measure was not under consideration at the conference and will be submitted to the president for his approval later.

### Famous Japanese Mapmaker.

Nothing like an authentic map of Japan existed until Ino Chukel finished his labor of love in 1821. His career was marked, for it was not until he had reached the age of fifty-five years, having been a sake brewer from boyhood, that he turned his attention to surveying. These maps were found to be so good and so free from large errors that they were adopted as the basis of the more recent trigonometrical survey of Japan. During his work he surveyed 137,000 square miles, using instruments which he made himself, but he met with no reward during his life, for on the termination of his undertaking he was thrown into prison by the Shoguns, where he remained until he died. He has since been honored by imperial decree, and a monument, erected in his memory, now stands in Tokyo.

## HIS SYSTEM WON

Minnesota Lecturer Tells of Monte Carlo Winnings.

Reveals Profits During His Suit Against Baroness, Formerly of Chicago—Cleared \$50,000 in Year.

London, Jan. 21.—Dr. Ernest Villiers Appleby, formerly lecturer at the University of Minnesota, and a son of former Arch-Deacon Appleby of the Episcopal diocese of St. Paul, astonished the court of king's bench with stories of his successes at Monte Carlo. He was giving evidence in a suit brought by him to recover \$20,000 from Baroness May de Pallandt, an American woman, whose family lives in Chicago.

The dispute was a sequel to a chance meeting of the plaintiff and defendant in 1903 on a train between Chicago and New York which led to the infatuation of the plaintiff.

"I did not gamble at Monte Carlo," explained Doctor Appleby in his testimony, "but I exchanged money at the tables and made money every year by my investments there. One year I made more than \$50,000 profit. I was a sure winner in the way I played."

Judge and counsel tried to get an inkling of Doctor Appleby's system, but the plaintiff told them they wanted to know too much. Baroness de Pallandt also entered the witness box. She told the court that Doctor Appleby had not worked for years. "He only gambles," she added. She said the doctor gave her a necklace on which she had borrowed \$15,000 from Miss Schafer, an American whose address she refused to give.

### SIGN RULES FOR SEA SAFETY

Convention Is Agreed to by Fourteen Countries.

London, Jan. 21.—The task of insuring greater security for ships at sea and their passengers was dealt with in a thorough manner by the international conference on safety at sea which came to an end. The delegates of 14 nations signed a convention laying down regulations for the future. The Austrian delegation was the only one that failed to sign and it will do so this week. The work of the conference closed with international tributes by the delegates of the leading powers.

## GIRLS! LOTS OF BEAUTIFUL, GLOSSY HAIR! NO MORE DANDRUFF--25 CENT DANDERINE

Hair coming out? If dry, thin, faded, bring back its color and lustre

Within ten minutes after an application of Danderine you cannot find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most will be after a few weeks' use, when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a

cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable lustre, softness and luxuriance.

Get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter and prove that your hair is as pretty and soft as any—that it has been neglected—or injured by careless treatment—that's all—you surely can have beautiful hair and lots of it if you will just try a little Danderine.

Tom King and wife were Dixon visitors Saturday.

John Himes of Pine Creek is visiting his daughter, Mrs. Sam Wolfe.

Rev. and Mrs. Semester and little son James of Savanna and Mr. and Mrs. Lloyd Sheep of Franklin, attended the services at the church Wednesday evening.

Henry Ling and James Hay shipped cattle and hogs to Chicago last week.

A large number from Oregon have been attending the meetings.

The interest in the meetings is still growing. At the close of the services Sunday evening the total number of those who had made a stand for Christ since the meetings began was 16, but ten of them are over 12 years old. We are rejoicing over these and praying that many more may follow their example.

## CARDUI WORKED LIKE A CHARM

After Operation Failed to Help, Cardui Worked Like a Charm.

Jonesville, S. C.—"I suffered with womanly trouble," writes Mrs. J. S. Kendrick, in a letter from this place, "and at times, I could not bear to stand on my feet. The doctor said I would never be any better, and that I would have to have an operation, or I would have a cancer.

I went to the hospital, and they operated on me, but I got no better. They said medicines would do me no good, and I thought I would have to die.

At last I tried Cardui, and began to improve, so I continued using it. Now, I am well, and can do my own work. I don't feel any pains.

Cardui worked like a charm."

There must be merit in this purely vegetable, tonic remedy, for women—Cardui—for it has been in successful use for more than 50 years, for the treatment of womanly weakness and disease.

Please try it, for your troubles.

### Hard to Fit.

The fish dealer explained to an old customer why he had discontinued the practice of supplying rubbers for women customers to slip around in over the slippery market floors. "I stopped it," he said, "because I could never supply the right-sized shoes without insulting somebody. If I offered them small shoes they were so mad because they couldn't wear them that they never forgave me for the humiliation, and if I gave them rubbers they could wear them were made still because I had taken it for granted that they had big feet. Either way I worked it that overhose scheme made enemies, so I concluded it was better for business to let folks slip around with wet feet."

### His New Problem.

The eminent dramatist was wrestling with his thoughts. "It must be a problem play," he said. "But what's the problem? All the old stuff is in use. I want something different." He passed up and down the room with his hands behind him—in the attitude Napoleon used when they were hustling him to St. Helena. "Let me think. Ah, I've got it now! I'll write a melodrama in which the police and the authorities are baffled at every turn. That's the stuff. And the problem is: 'How are we to mitigate the growing evil of law and order?' Gee, that's bully! There'll be a chuckle in every line and a roar in every situation. Go to it, boy."—Cleveland Plain-Dealer.

### Safety Committee a Success.

Four years ago an eastern railroad appointed thirty-five committees of its employees to study small matters which lead to accidents. These committees, according to the American Machinist, have made 17,333 recommendations, of which 13,861 have been adopted. One result is that 99,753 safety guards of all kinds have been installed. Another is that in 35 out of the 46 shops in which more than 500 men are employed the number of serious accidents per thousand men has been reduced by from five per cent. in some shops to 70 per cent. in others.

## Lameness

Sloan's Liniment is a speedy, reliable remedy for lameness in horses and farm stock. Here's proof.

"I had a horse sprain his shoulder by pulling, and he was so lame he could not carry foot at all. I got a bottle of your Liniment and put it on four times, and in three days he showed no lameness at all, and made a thirty mile trip besides."—Walter B. Alorford, La Salle, Ill.

For Splint and Thrush

"I have used Sloan's Liniment on a fine mare for splint and cured her. This makes the third horse I've cured. Have recommended it to my neighbors for thrush and they say it is fine. I find it the best Liniment I ever used. I keep on hand your Sure Colic Cure for myself and neighbors, and I can certainly recommend it for Colic."—S. E. Smith, McDonough, Mo.

## SLOAN'S LINIMENT

is a quick, safe remedy for poultry, rump, canker and bumble-foot. Try it.

For Roup and Canker

"Sloan's Liniment is the speediest and surest remedy for poultry rump and canker in all its forms, especially for canker in the windpipe."—E. P. Spaulding, Jaffrey, N. H.

## M'ADOO FORESEES GAINS UNDER LAW

Secretary Tells Persons at Banquet That Business Now Has Settled Basis.

### PRAISES WILSON'S POLICIES

Says Administration Aims to Dispose of Questions Which Cause Financial Unrest—Regional Hearing to St. Louis.

Chicago, Jan. 21.—The aim of President Wilson is to solve, according to his lights, as many of the economic problems of the country as possible on the theory that the fewer things the pessimists have to worry about, the better conditions in the nation will be. This was in substance the announcement of Secretary of the Treasury William G. McAdoo at a banquet given to him and to Secretary of Agriculture David F. Houston by the Illinois Bankers' association and the Bankers' club of Chicago at the Hotel La Salle.

The two cabinet members were welcomed to the state by Governor Dunne, who assured Secretary McAdoo that in Illinois at least state banks would be permitted to take capital stock in the federal banks.

"Law 100 Per Cent. Good."

"The people who say that this measure is 80 per cent. good and 20 per cent. bad are simply making an arbitrary statement that can neither be proved nor disproved," said Mr. McAdoo. "I say that any measure that will prevent a recurrence of great financial panics in this country is 100 per cent. good—and that is what this measure will do."

"In my opinion the present federal reserve act represents the greatest bit of constructive legislation in the history of the country. If by sacrificing my health, my reputation and everything else that I might dedicate to the cause, I succeed in placing this act in operation in such a manner as to cause it to work in the interest of the whole American people—as I know it will—I will consider that the sacrifice has been well worth while."

Need Control Board.

"What we need in this country is an adequate power to meet any situation that may come up, speaking from a currency standpoint. That is just the authority we have vested in a body of seven men, under this act. But there are many who are afraid to have that power in such hands. They fear the results of such control. Those citizens who voice this objection, however, do not appear to realize that even greater power has in the past been placed in the hands of one man."

"There also are those who predict that the transition period, as this act goes into effect, will be accompanied by a financial stringency. And there are those who insist that financial inflation will accompany it. I say that neither will be true. If the business men will simply pull together and assist in carrying this measure into execution it will prove one of the most valuable pieces of legislation ever enacted in this country."

Secretary Houston was equally optimistic about the outlook for business, based upon his study of the banking situation since the present investigation by the two secretaries was begun pending the naming of sites for regional banks.

Indorse Reserve System.

The new federal reserve act was given unqualified indorsement at a meeting of the National Association of Bank Supervisors. Resolutions setting forth the views of the bank supervisors were adopted after an address by Edward H. Doyle, president of the association and commissioner of banking in Michigan, in which he said that "calamity howlers" had been disappearing rapidly since the passage of the currency act.

Business men and bankers of western cities urged the necessity of a regional bank in the northwest before Secretary McAdoo and Secretary Houston in the federal building. Practically the entire morning session was given over to the presentation of the claims of the rival cities of Minneapolis and St. Paul. Then Secretary McAdoo adjourned the Chicago hearing. A similar hearing will be conducted in St. Louis, beginning today.

HAITIEN REBELS ROUT Foe

Minister of War Flees to Take Refuge on Steamer.

New York, Jan. 21.—Miss Alice A. Holmes, who delighted in the title of "The Blind Poetess of Jersey City," is dead in her home in that city in her ninety-third year.

## ECZEMA SPREAD ALL OVER BODY

Began on Cheeks With Pimples. Itched Badly. Caused Disfigurement. Had to Put Mittens on Him. Used Cuticura Soap and Ointment. Eczema Left Him.

Roxbury, Ohio.—"When my little boy was two weeks old he began breaking out on his cheeks. The eczema began just with pimples and they seemed to itch so badly he would scratch his face and cause a matter to run. Wherever that matter would touch, it would cause another pimple until it spread all over his body. It caused disfigurement while it lasted. He had fifteen places on one arm and his head had several. The deepest places on his cheeks were as large as a silver dollar on each side. He was so restless at night we had to put mittens on him to keep him from scratching them with his finger nails. He could not sleep because I put those mittens on which would not allow him to scratch and then he would wake up and be cross. If he got a little too warm at night it seemed to hurt badly."

"We tried a treatment and he didn't get any better. He had the eczema about three weeks when we began using Cuticura Soap and Ointment. I bathed him at night with the Cuticura Soap and spread the Cuticura Ointment on and the eczema left." (Signed) Mrs. John White, Mar. 19, 1913.

Cuticura Soap and Ointment do so much for poor complexions, red, rough hands, and dry, thin and falling hair, and cost so little, that it is almost criminal not to use them. Sold everywhere. Sample of each mailed free, with 32-p. book on the skin and scalp. Address post-card "Cuticura, Dept. T. Boston."

Men who shave and shampoo with Cuticura Soap will find it best for skin and scalp.

Appropriate Sign.

A gentleman of antiquarian tendencies who loved the drama of another day and another school was lured to New York and inveigled into a theater where a much-discussed play dealing with life in the underworld was being performed. He stuck it out to the end and when he was asked to give his opinion of the work he said: "I think that over the door of the theater there might well be hung one of the old English inn signs, 'Entertainment for Man and Beast.'"

ONE DOSE RELIEVES  
A COLD-NO QUININE

"Pape's Cold Compound" Ends Bad Colds or Grippe in a Few Hours.

Relief comes instantly.

A dose taken every two hours until three doses are taken will end gripe misery and break up a severe cold either in the head, chest, body or limbs.

It promptly opens clogged-up nostrils and air passages in the head, stops nasty discharge or nose running, relieves sick headache, dullness, feverishness, sore throat, sneezing, soreness and stiffness.

Don't stay stuffed up! Quit blowing and snuffling! Ease your throbbing head! Nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only 25 cents at any drug store. It acts with out assistance, tastes nice, causes no inconvenience. Be sure you get the genuine.

Water Lines Passenger Meeting.

Buffalo, N. Y., Jan. 21.—The International Water Lines Passenger association began its annual meeting this afternoon at the Lafayette hotel, George C. Wells presiding. Among the subjects under consideration are the "See America First" movement, limiting the size of baggage and the opening and closing dates of the season of navigation.

We reprint herewith an extract from an opinion rendered by a famous scientist showing that beer in light bottles can not remain pure.

"Beer bottles should be manufactured from reddish-brown glass, inasmuch as same will to a much higher degree than any other kind of glass, minimize the influence of the rays of light on the quality of beer, and will protect the latter against acquiring the disagreeable taste (Sonnengeschmack) due to the chemical action of light.

"In white and green glass bottles the beer is most affected by the action of the light. Such bottles are, therefore, absolutely inappropriate and should never be employed by brewers."

SPECIAL ASSESSMENT NOTICE.  
Special Warrant Under Local Improvement Ordinance No. 140, Series of 1912.

Public Notice is hereby given that the County Court of Lee County, Illinois, has rendered judgment for special assessment upon the property benefited by the following improvement; the construction of concrete curbing and vitrified brick or block pavement on Third Street from the west line of Galena Avenue to the West line of Douglas Avenue, on the south side of Rock River, in the City of Dixon, Illinois, as will more fully appear from a certified copy of said judgment now on file in my office and that a warrant for the collection of such assessment is in the hands of the undersigned.

Said assessment is payable in ten annual installments. The amount of the first installment is \$150.93 and is due and payable on or before January 2, 1915. The last nine installments are each for the amount of \$3600.00 and one of such installments is due and payable January 2nd in each of the years 1916 to 1924, both inclusive. All such installments bear interest at the rate of five per cent per annum, payable annually on the 2nd day of January, from the 5th day of January, A. D. 1914.

All persons interested are hereby notified that they may call at the Collector's office, in the City Hall, in the City of Dixon, Illinois, at any time within thirty days from and after the date hereof, and pay the amount assessed against them, or the property they represent, if they so desire.

Dated this 21st day of January, A. D. 1914.

BLAKE GROVER,  
Collector.

American Ginseng in Oriental Markets.

American ginseng, the market for which is almost exclusively confined to China and Korea, has been an article of export from this country for more than a century, the prices rising, as the wild supply diminished because of the clearing away of suitable forests, from 40 cents a pound in the early years of its collection to more than \$6 a pound for the best qualities during the last eight years. The cultivation of the plant is comparatively recent; it began in an experimental way about fifteen years ago, and has now attained such proportions that the output of the cultivated roots almost equals that of the wild. The total exports exceed a value of a million dollars a year.—Scientific American.

## WHY WOMEN SUFFER

Many Dixon Women Are Learning the Cause

Women often suffer, not knowing the cause.  
Backache, headache, dizziness, nervousness.

Irregular urinary passages, weakness, languor—  
Each a torture of itself.

Together hint at weakened kidneys. Strike at the root—get to the cause.

No other remedy more highly endorsed than Doan's Kidney Pills.

Recommended by thousands—  
Endorsed at home.

Here's convincing testimony from a Dixon citizen.

Miss Delia McGrail, 503 College Ave., Dixon, Ill., says: "I don't hesitate to publicly endorse Doan's Kidney Pills, for I found them to be just as good as represented. My kidneys were out of order and I had pain through my back and sides. I heard about Doan's Kidney Pills and used them. They gave me a permanent cure."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Miss McGrail had. Foster-McBarn Co., Props., Buffalo, N. Y.

### Too Many Statues.

Alarmed at the steady increase of statues in the city, the Paris municipal council has practically decided that in future one statue must be the regulation allowance to a famous man or woman, instead of four or five, as is now the case in some instances. Orders have been given to take from their pedestals three Joan d'Arc, three Voltaire and on Diderot statues, in order to make room for Beethoven, Mme. de Staël, Gautier, Haussmann, Bouguereau and Turgenieff—to name a few personages for whom monuments are being demanded daily.

SHELBY M. CULLOM

Former Senator Shelby M. Cullom of Illinois is seriously ill at his home in Washington. He is suffering from general debility and as he is eighty-four years old there is fear that he may not recover.

## WIFE BEGGED DEATH

Aged Man Confesses Killing Invalid at Her Request.

Veteran Tells Philadelphia Magistrate How Spouse Pleaded to Be Put Out of Pain After Fall.

Philadelphia, Jan. 21.—William Eberwein, tottering under the weight of his eighty years, stood in criminal court here and told a simple but dramatic story of how his wife, fifteen years younger, had pleaded with him to kill her, and how he committed the deed.

After the old man had completed the story Judge Walling imposed the minimum penalty for second degree murder, in this case practically a life sentence. It was solitary confinement in the penitentiary for not less than seven years.

Standing with trembling hands, Eberwein, who is a veteran of the Civil war, told the court that his wife, who was an invalid, fell down a stairway one day last October. When he found her and offered to have her sent to a hospital she refused.

"You do it, William," Eberwein alleged his wife said.

"Do what?" I said, the prisoner continued.

"End it all for me. It's no sin when I'm suffering so."

"I had a board in my hand that I had brought in out of the yard. I looked at her and guessed it wouldn't be a sin."

"Go on, William," says she, "go on."

"Then I tapped her on the head with the board and I tapped her again. She didn't moan much, and once when I stopped she kind of whispered: 'Go on, it won't be long.' So I kept on tapping and she got quiet."

"If I get out of this I want to go to the Sailors' Home," Eberwein concluded.

## CULLOM IS SINKING FAST

Former Illinois Senator Near Death in National Capital.

Washington, Jan. 21.—Former Senator Shelby M. Cullom of Illinois, who is critically ill at his home here, was not improved. His physician said that Mr. Cullom's heart action was weak and that he was likely to die at any minute. Doctor Sowers, the physician who is attending Mr. Cullom, visited his patient twice during the day. Mr. Cullom spends most of his time sitting up in a chair, as he is more comfortable when in this position. Senator Cullom remained sitting up all day and, although realizing his critical condition, he has been in a cheerful frame of mind.

## HOLDS EUGENIC LAW VOID

Milwaukee Circuit Judge Rules Against the State.

Milwaukee, Jan. 21.—Declaring the state eugenic law unconstitutional, Judge F. C. Eschweiler of the circuit court granted a writ of mandamus directing County Clerk Widule to issue a marriage license to Alfred Peterson without the previous presentation of a health certificate, which the law requires. The judge held that the limit placed on the examination fee, which the law fixed at three dollars, was unreasonable. Among other things, the court said the law was violative of the rights secured by the Constitution and conflicted with the principle of religious liberty because it tended to halt marriages.

## Lived Long With Broken Neck.

St. Paul, Minn., Jan. 21.—Walter S. Graham, a former U. of M. student, after living for three years and a half with a broken neck, died at his home. He was paralyzed from the neck down. Medical annals chronicle no similar endurance, records of suffering no greater fortitude. The injury was received August 7, 1910, at Lake Minnetonka, in diving from a pier.
